We are requesting your assistance in identifying the extent of advanced communications services and infrastructure in Wisconsin. Every two years the Public Service Commission of Wisconsin supplies a report to the legislature on the status of investments in these services and infrastructure.¹ Much of the information will be obtained from Incumbent Local Exchange Companies (ILECs) and Competitive Local Exchange Companies (CLECs). Cable TV providers have submitted information in the past regarding broadband service information. This type of information from Cable TV will again help us to provide a more complete report to the legislature.

A short data request form is attached which requests information as of June 30, 2005, on broadband access data in your service areas. If your company does not provide any type of broadband access service at this time, please check the box located at the top of the data request form indicating no service is provided and return the form using the information in the box at the beginning of this letter.

The responses can be returned by e-mail, or by US mail. Electronic copies of the form and an electronic answer sheet is available on the PSC web site at:

If you have any questions please contact Judith Klug at 608-267-1204 or by e-mail at judith.klug@psc.state.wi.us.

¹ The previous report to the Legislature is available for review on the PSC web page at:

Thank you in advance for your response. Input by the Cable TV industry will result in a more useful and complete report to the legislature.

Sincerely,
